NETSOURCE TECHNOLOGY

ISO 9001:2015 CERTIFIED · ITAR International Traffic in Arms Regulations Compliant

WHO WE ARE

NetSource Technology is a global procurement organization and is one of the largest independent stocking distributors of electronic components. We provide professional and supply chain solutions to OEMs and contract manufacturers worldwide.

o Our specialty is locating hard-to-find, obsolete, end-of-life (EOL) and highly allocated components with long lead times

o When you work with NetSource, you're working with a full-service supplier

o We support customers throughout the complete supply chain lifecycle

o We leverage our extensive range of trusted suppliers to stock obsolete and current components. Our vast onsite inventory houses only brand-new products from many in-demand manufacturers.

SEAMLESS PROCURMENT SERVICES

Ensuring the procurement of the right products and solutions can be a daunting task and can result in downtime, lost productivity and variation in product quality, among other challenges.
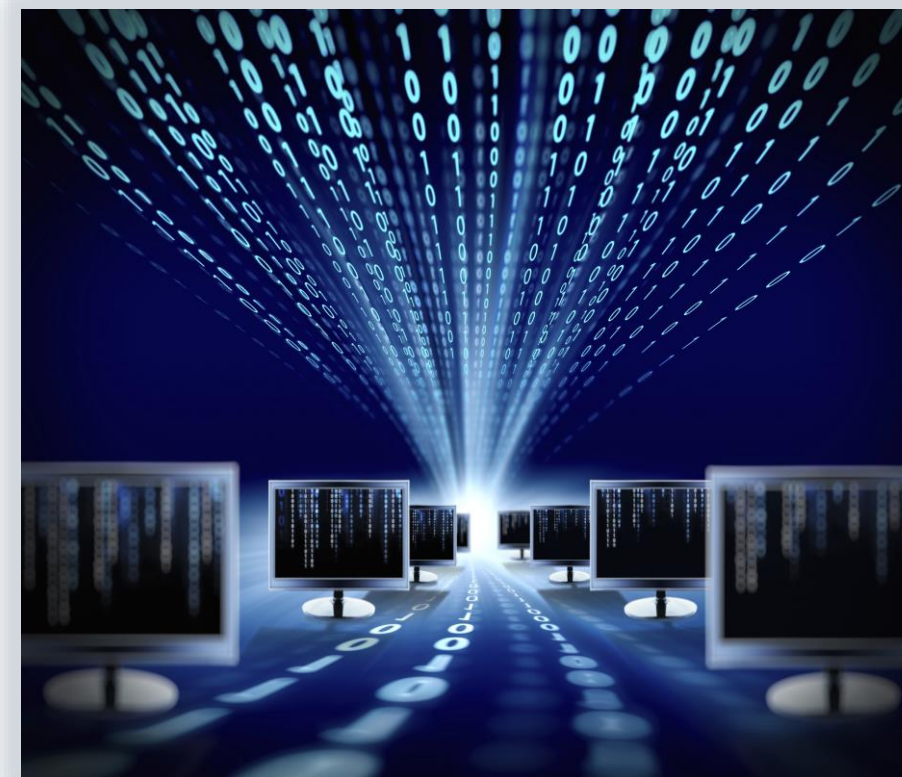

From procurement to support, working with NetSource our customers achieve positive business outcomes including; effective response and remediation of emergency situations, alleviation of long-lead times and product shortages, and an ongoing commitment to provide personalized attention - regardless of your situation.

We offer products and solutions that cover the breadth of your supply chain needs – from sourcing to support.

o **All-inclusive partner for all your product needs**
o **Intuitive customer product portal**
o **Buying power**
o **Flexible payment options**

QUALITY ASSURANCE + COUNTERFEIT PREVENTION

OUR ANTI-COUNTERFEIT MEASURES ASSURE THE DELIVERY OF GENUINE COMPONENTS FOR CUSTOMERS

In recent years, the electronics component industry has seen a proliferation of counterfeit components penetrating the supply chain. With over two decades of hands-on experience identifying and eliminating risks and counterfeit threats, we are accomplished in taking all necessary proactive measures to ensure our customers receive only authorized and genuine components.

o We only ship products that pass our rigorous internal Level 1 inspection program and determined to be authentic. Third-party, level 2 inspections may be conducted for an extended layer of end-to-end authentication.

o NetSource adopts a zero tolerance anti-counterfeit policy. We make no exception to this policy.

## QUALITY ASSURANCE AND CERTIFICATIONS

Quality Assurance is built into every step of the NetSource process. We employ quality control mechanisms that exceed industry standards to ensure that products are delivered to exact specification.

We are fully committed to Continuous Process Improvement to deliver thoroughly inspected products and services that meet our customers' high standards.

Our commitment to quality assurance is validated through our ISO 9001:2015 certification, ITAR registration and industry leading counterfeit prevention programs.
